Hon. Commissioner of Patents
& Trademarks,
Washington, D.C. 20231

Sir:

RESPONSE A

In response to the Office Action dated May 7, 2002 please amend the claims in
the subject application as follows:

CLAIMS

1. A method for the dehydration of naturally occurring organic substances containing biologically active components which comprises combining such material with an antimicrobial agent and an ionizing salt, [and] heating the resulting mixture in particulate form at a temperature below which denaturization occurs until the water content is reduced to below which substantial microbial or pathogenic activity occurs, and recovering a product in its original natural structure.
1. 2. The process of claim 1 wherein the ionizing salt is used in solid form [antimicrobial agent is an ionizable salt].
